

Kristazyme

An extra high-potency plant-based digestive enzyme supplement formulated to optimize breakdown of protein, fats and carbohydrates across a broad pH range

- *Kristazyme* helps counteract the age-related decline in pancreatic enzyme production, which can lead to compromised digestion and assimilation of nutrients
- *Kristazyme* can also be used therapeutically for various digestive disorders, including bloating, malabsorption and intestinal hyper-permeability (leaky gut syndrome)
- Manufactured exclusively from plant enzymes, which operate over a wider pH range than pancreatin (animal derived digestive enzymes)
- Works in the acid environment of the stomach as well as the alkaline environment of the small intestines
- Contains an unusually high lipase content (1,250 FCC LU) to optimize the digestion of dietary fats and oils
- Contains five different proteolytic (protein digesting) enzymes, four proteases plus bromelain, a complex of enzymes extracted from pineapples
- Contains lactase to hydrolyze lactose (milk sugar) which can assist lactose intolerant individuals in digesting dairy products
- Contains several additional carbohydrate digesting enzymes (amylase, cellulase, malt diastase, cellulase, invertase [sucrase]) to break down starches and sugars
- Though aspergillus species are used in the manufacturing process, no aspergillus is present in the final product of the enzymes
- *Kristazyme* is contraindicated with gastric ulcers (as the proteolytic enzymes can aggravate the damaged endothelium), and should be used with caution in cases of gastritis

Supplement Facts		
Serving Size 1 Capsule • Servings Per Container 90		
Amount Per Serving		% DV
n•zimes™ proprietary blend	441 mg	*
Amylase	13,000 DU	*
Protease 4.5	55,250 HUT	*
Protease 3.0	75 SAPU	*
Lipase	1,250 FCCLU	*
Glucomylase	10 AGU	*
Invertase	135 SU	*
Peptidase	2,500 HUT	*
Neutral bacterial protease	6,000 PC	*
Lactase	725 ALU	*
Cellulase	225 CU	*
Malt Diastase	75 DP°	*
Bromelain	50,000 FCCPU	*

* Daily value not established

Other ingredients: rice bran, vegetable cellulose, water

n•zimes™ is a trademark of National Enzyme Company

Other Features:

- Manufactured by National Enzyme Company (NEC), the most respected enzyme manufacturer in the U.S., founded in the 1920s by Dr. Edmund Howell, an internationally recognized pioneer in enzyme research
- Vegetarian capsules; all-vegetarian product

Kristazyme (90 Capsules)
Item # PMN 100
